DirtGlue polymer emulsions:

1. EMJ Corp.
Jay McGee, Project Manager
1303 Walnut Hill Lane #130
Irving, TX 75038
972 580-1210

Job was to provide dust control for a Lowes site in Kalispell MT. The site is 12 acres and required 3600 gallons of DG Light product. It was put down in the late November time frame and was declared a success.

2. Wheelabrator (Waste Management), Saugus.
Manager/Customer Jim McIver
Saugus Wheelabrator

jmciver@wm.com
Project Manager
Mark Koenigx
978 337-1657

A 72K sf pile was capped using 550 gallons of DG Light. The pile survived the winter and was still capped 9 months later when the site was reclaimed and seeded.

3. Rocky Point Mexico,
Tiffany Construction
CMG , Boyden Phillips and John Angelo should be contacted to get a testimonial etc. from the contractor. Boyden cell: 602 684-1882, John A cell: 623 521-8063
3180 gallons of DG Light was used to control dust in a 10.6 acre development site and was declared successful.
4. Erosion Control Montana DOT at Bear Tooth Pass to repair damage due to landslides at the entry to Yellowstone National Park. Approx. 10 acres of steep slopes. Declared successful by MTDOT

5. WalMart site, pile capping
Providence RI Pike Industries.
Pike Construction
Mike Nicosia, Project Manager
Rochester NY
585 271-5256

Fines were avoided and the job was brought back on line because of the quick action and successful DG application to contain piles and dust on access roads.

6. Gramercy Aluminum
Pile capping on bauxite piles prior to aluminum manufacturing process.
